

yassion 亚翔电子		INVERTER SPECIFICATIONS-2000W
Model	YX-2000-M	
Output Waveform	Modified Sine Wave	
Continuous Power	2000W	
Peak Power	4000W	
Frequency	60Hz	
Efficiency	up to 90%	
Input Voltage	DC12V	
	10-15.5V	
Low voltage protection	10±0.5V	
Over voltage protection	15.5±0.5V	
Output Voltage	120V	
No Load Current Draws	<1.0A	
Cooling fan	Temperature and load controlled	
Dimensions(L*W*H)	310*220*80mm	
Weight	4.3 ± 0.2kgs	
Protection Function	Low voltage shut down protection Over input voltage protection Over temperature protection Over load protection Short circuit protection Reverse polarity protection (Fuse)	
LED Indicator Light	Green LED for power on Red LED for fault status	
Fuse	External	
USB port	5V,500mA	
Grounding	Ground Chassis: Properly grounds the Inverter to vehicle grounding system or to earth ground.	
Remote control	Control your Inverter at a distance with Remote Control switch	
Application	Automobiles, RVs, boats, tractors, turcks, laptops, TV sets, video games, Cdplayers, DVD players, power tool, office equipment, major household appliances, etc.	
Environment	Operating temperature: 0°C--40°C @ 100% load; ≥ +60°C @ 50% load Operating relative humidity:20%--90% RH non-condensing Storage temperature:-30°C--+70°C Cooling Fan automatically run:inner temperature rising up is ≥45°C, or load power is rising up ≥ 30%	
Accessories	one pair of 70CM battery cables 1 x instruction manual 8 x replaceable fuses	
Certificate	CE approved	
Remarks	With Charger is available.
