## *NEW PRODUCT INFORMATION*

### **FINALSAN**

Finalsan is a natural herbicide for the control of annual weeds, moss and algae.

The active ingredients are naturally occurring fatty acids extracted from plants.

They are soft on the environment and safe to use.

Finalsan will control moss and algae on structural surfaces.

Finalsan does not stain concrete, brick or wood surfaces.

Finalsan is fast acting and results are seen within hours.

Finalsan is safe to use and decomposes rapidly.

Finalsan has a scorching action against annual weeds.

**Active Ingredient:** Ammoniated Soap of Fatty Acids 220g / ℓ.

**Registration:** RSA L6959 Act 36 / 1947

EPA № 67702 USA

**WARNINGS:** Avoid contact with eyes and skin, it can be irritating to eyes, and prolonged skin contact may cause allergic reaction in some individuals.

Keep out reach of children, uninformed persons and animals.

**PRECAUTIONS:** Do not eat, drink or smoke while handling this product.

Prevent contamination of food or feeds, drinking water and eating utensils. Wash yourself after use or accidental skin contact. In case of eye contact rinse with plenty of running water.

Do not reuse container.

### **DIRECTION FOR USE:**

Shake well before use.

Avoid spray drift onto other plants.

Thoroughly wash equipment after use.

Any standard hand held or backpack sprayer can be used.

Spray to point of run-off.

Damage to weeds, moss and algae will be visible from within a few hours to 2 days after spraying.

Repeat sprays may be necessary.

If rain falls within 3 hours of application, an additional spray may be required.

### **DOSAGE:**

1 Part Finalsan to 5 parts water.
