INTRODUCTION

Thank you for purchasing the Eco-Silver/HEPAtech Air Purifier from Hunter Fan Company. You have purchased our latest development in Portable Air Purification Systems. This system has been developed to improve the quality of the air you breathe.

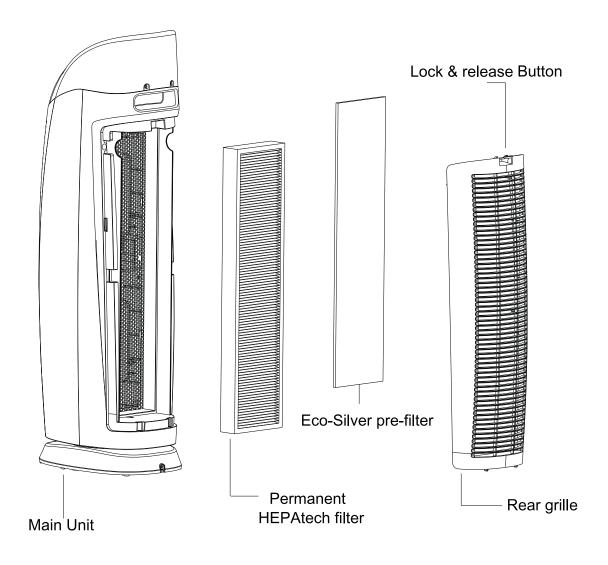

Our Eco-Silver/HEPAtech Air Purification System out performs other air purification systems by quickly and effectively removing dust, smoke, and pollen particles as small as 0.3 microns in size. The following innovative features are included in your Hunter Air Purifier.

High Particulate Efficiency: The permanent HEPAtech filter will remove 99.9% of particles as small as 0.3 micron particles from the air that passes through the filter.

Eco-Silver Anti-Bacterial Odor Reduction Pre-Filter: The Eco-silver pre-filter is a replaceable filter and must be replaced periodically to insure full anti-bacterial benefits. It can kill typical bacterium and stop bacterium from propagating. It also will help to reduce unpleasant household odors.

HOW THE SYSTEM WORKS

Dust and other irritants are pulled into the Air Purifier by the fan. The Eco-Silver pre-filter attracts large particles like pet dander and hair and traps them on the pre-filter. Eco-Silver pre-filter will kill the bacterium adhesing on it and so stop bacterium from growing and propagating. Small particles such as dust, mold, and pollen pass through the Eco-Silver pre-filter and are captured by the permanent HEPAtech filter. Up to 99.9% of particles can be captured.

It is necessary to periodically check your Air Purifier for performance. If the Eco-Silver and or the Permanent HEPAtech filters are covered with dust and other particles, it will be necessary to replace the Eco-Silver pre-filter; and either clean or replace the main HEPAtech main filter. The Eco-Silver pre-filter is recommended to be checked once a month.

An arrow indicating which side to clean is present on the label of the HEPAtech filter. If the Eco-Silver pre-filter is covered with a heavy amount of dust and particles, it will need to be replaced with a new Eco-Silver pre-filter to insure full bacterial protection.
