## Short games/ activities (Choose one)

### *1. Blind Drawing*

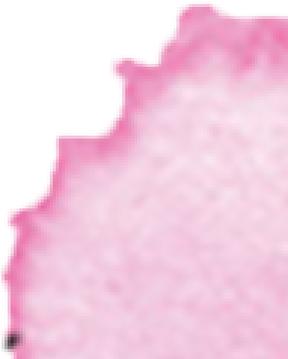

The aim of this game is for two people to work together to copy a drawing that only one team member can see. The “drawer” is blindfolded and given paper and pen. The “looker” has to describe the picture to the drawer and help them translate the image.

### *2. Non- Preferred Hand Drawing*

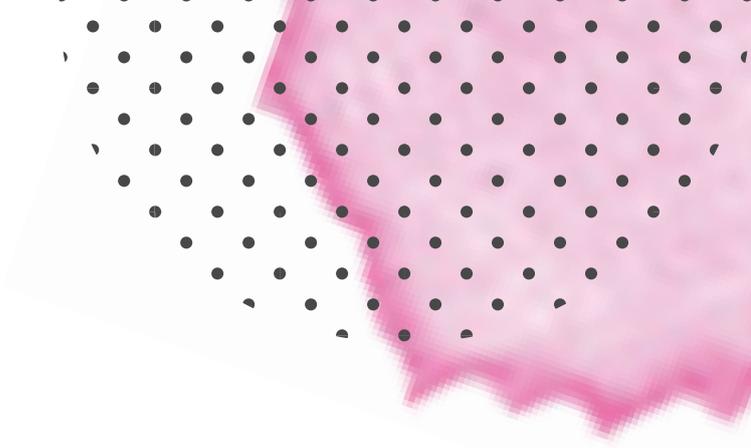

A great way to remove perceived creative ability barriers. Everyone works together as a team using their non preferred hand to draw an object onto paper.

### *3. Team Pictionary*

A word or phrase related to the industry are presented to the first designated drawer in each team. The drawer must draw the word and their team guess within 1 minute. No words, symbols or numbers or actions are allowed to be used.

### *1. Puzzle Mural Artwork*

Working in small teams or individually, participants are given a small canvas with random outlines. They then paint their own design using colours, textures and patterns. The group then need to work together to place their piece of the artwork into the right area to see an overall image.

### *2. Individual Artworks*

Each participant is given a blank canvas. Our artist facilitator will give an overview of the theme or subject to be painted and then provide some training of different techniques to try out. Inner artists are unleashed as everyone creates their own masterpiece!
