Why wear a uniform ?

Pride is part of **Performance**. The Seneca flight course requires students be in full uniform & well groomed.

This is 10% of your overall grade in the Flight Services program.

Why do students have to wear a uniform during the course?

The Aviation industry is always in uniform. Each airline will have uniform and grooming rules that all employees must follow. In this course you will learn the basic skills and be expected to develop grooming habits that will align with these industry standards. In effort to provide customer service excellence; under any circumstances the expectation is to be in full uniform. You are joining an exciting global industry and your appearance communicates, use this as a tool to excel your learning and career potential. An added value to your uniform purchase is that the uniform should be worn to all your work interviews, the Seneca logo is removable. This uniform is an investment into your future self.

Seneca shares the values of leadership, teamwork, diversity, and pride. We want you to be #Senecaproud in our custom flight suits designed specifically for this course by Laura Di Marcello. Welcome aboard the journey is about to begin.
