

FASTENER POUCH

SKU: BFP

BUCKAROO

MADE IN AUSTRALIA EST. 1971

Description

Buckaroo's first clip-on tool belt component. It's simplicity is key to its versatility, from an entry-level tradie through to the most skilled tradesperson, there's numerous ways this little beauty can be utilised to make you work more efficiently. No need to touch your belt, clip it on for extra room when you need it, then pull it off when you've finished the job. Sleek yet accommodating, this pouch maintains style but allows you to add extra room and easy access whilst keeping your favourite tools where they belong, present and at the ready.

The Buckaroo pouch features an open shape for easy hand-to-fastener access, quick access front slots suitable for pencils, punches, and drill bits. The main pocket can carry a tape measure or chalk line with fasteners, spring clip on the back enables carrying on the belt, nail bag pocket, pant pocket or anything else that will provide easy access. Increase the size and capacity of your rig by clipping one, or maybe two, onto whatever you can, your Buckaroo belt, another pouch, or even your Buckaroo braces.
