The Nectar Mission

Our mission is to empower the free thinkers, embrace the risk takers, and encourage every individuals' right to pursue their own unique version of The Sweet Life. We hope to inspire a relentless passion for creativity and adventure by remaining firmly rooted in our fundamental ideals: that quality can be affordable to the masses, not just the elite-- and that style and authenticity are synonymous.

Save the Bees

Nectar has partnered with THEBEECAUSE, which is an organization dedicated to educating students and repopulating bee colonies around the world. Together, our goal is to produce 1,000 observational bee hives inside schools. These viewing hives help educate children on the importances of bees and allow them to safely investigate thriving bee communities.

Warranty

We stand behind our shades 100%, so we offer \$20 replacements with every pair for life.
