

SPRAYBOT

Why wouldn't you want to save more?

Automated machinery has been known to save time, contain overspray and minimize employee fatigue. Spraybot customers not only save 10% or more in yield on spray foam, polyurea, and other coatings projects - they also enjoy *low-maintenance easy-transport equipment*. The modular design can be easily adapted to meet your project needs.

- 62" spray head for superior product application
- Quick assembly & easy storage
- Broad uses and low slope compatible
- Adapts to single and plural applications
 - +/- 2 mils Coatings
 - +/- 1/16" SPF
