In-line Table

1 Secure Hex Bolts into bracket by threading them through holes in the In-line Table Top. Repeat on the adjacent side.

4x **25mm Hex Bolt**

2 Gently align the bracket holes with the threaded holes on the back Long Legs while aligning the In-line Table Top with the threaded holes on the Short Legs.
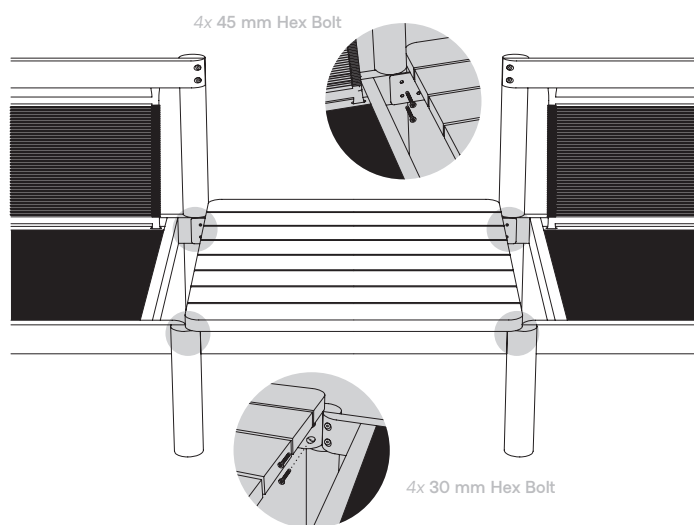

End of Back Support and back of Seat Base should be flush with edge of Long Legs
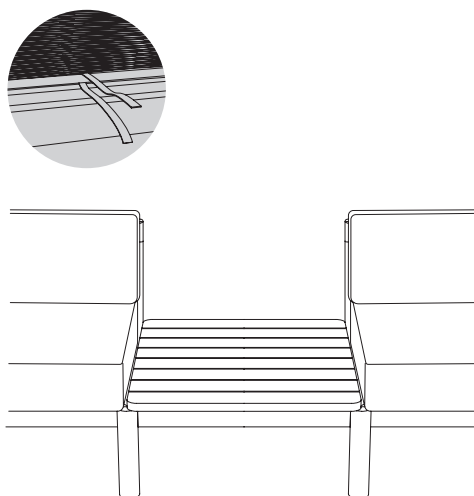

Leave two holes exposed on Short Legs

3 Fasten the In-line Table Top to the seating modules on both sides with four 30mm Hex Bolts (into Short Legs) and four 45mm Hex Bolts (into Long Legs).
