

# Organic Gut Solution

## Canine Formula

### The GUT Is The First Defense For The Immune System Against Bacteria, Parasites, And Harmful Toxins

Organic Gut Solution (OGS) is a unique combination of ingredients to naturally establish a healthy intestinal balance. An easy to use powder, with the ability to bind harmful toxins to itself and be excreted as waste. Our pets, like us, are surrounded by contaminants in our air, water and food. The intestines are also the primary producer of serotonin, which is important for stable behavior.

Using Organic Gut Solution is support for a strong immune system to revitalize and detoxify your pet. A reduction in toxins means that the digestive system can work at its optimum and experience relief of unwanted symptoms.

Relieve Digestive Issues • Normalize Stool • Soothe Skin  
Reduce Anxiety • Minimize Food Allergies

OGS can be fed to all dogs species from puppy through adulthood.

**FEEDING INSTRUCTIONS:** 1 teaspoon per cup of food ration.

"Maggie is a 2.5 year old GSD mix, who has always been a picky eater with a sensitive tummy, diagnosed with GERD (Gastroesophageal reflux disease). After spending hundreds on vet bills and medication & switching foods constantly, I've realized that natural is the way to go.

Organic Gut Solution was recommended to us because of their limited & recognizable ingredients. After just 2 weeks of adding OGS to Maggie's diet, I've recognized more solid poops & a huge decrease on how much she throws up!

Despite it having no taste or smell, Maggie was literally trying to eat it out of the bag- so you know it's good! We know that this is always going to be part of her meal plan, and we are so grateful!"

-Dog Trainer, Breanna Guinn

"Our 10 pound dog had been snubbing his food & constantly eating grass - we have been giving him the OGS for a couple of months now and he has all but stopped eating grass and he eats & plays like he used to. Very pleased!"

-Cheryl DiVerio

"I have used this product on both of my dogs. They have both stopped eating grass and their coats are shinier. It has also helped with any GI upset. I would highly recommend this organic product!"

-Jeanne Conner

"We began using OGS on our Collies and are seeing positive benefits. We used it throughout the pregnancy of one of our girls. She delivered her litter effortlessly. They are healthy and thriving.

Our entire kennel has been using OGS for about 6 months and have noticed better quality poo and less of it. The dogs are thriving on this product."

-Cathy & Robert Meier

"The thing I like about OGS is that I feel strongly that a dog with a balanced and healthy stomach leads to reduced anxiety - it's the reason I jumped on board with OGS Canine Formula."

— LINDSAY CLARK, LC'S COMPETITIVE EDGE DOG TRAINING
