

The Highprofile Classic timber plantation shutter collection will take your home to a whole new level of style, transforming the way you live. Highprofile Classic shutters combine strength and durability with elegant design, and help you provide the right mix of light, airflow and temperature control in that special space.

Our unique construction method means you can place less panels in a window and maximise both light and the view.

Choose between our two beautiful and versatile options of poplar painted or basswood stained. We have the perfect shutter to suit every home.

HIGHPROFILE CLASSIC PAINT

Our Highprofile Classic painted shutters are the perfect choice for that classic plantation look which shines in both traditional and modern settings. Opt for one of our 13 classic whites, or experiment with custom colours to create your ideal interior scheme. Made from premium poplar, a low density, light coloured hardwood timber, they have a fine texture and a lack of taint which allows for a flawless finish.

Our unique construction method makes our shutters stronger but also results in a more efficient yield from the tree, resulting in a more environmentally friendly and economical finished product.

HIGHPROFILE CLASSIC STAIN

For that truly luxurious feel, a beautiful shutter in a rich timber stain is without equal. Made from premium basswood, our timber is light in colour, has a fine uniform texture and an indistinct straight grain, which enhances the stain colouring process. Available in 13 standard stain finishes and custom stains upon request, your shutters will complement any space imaginable.

Furthermore, our unique production process means that our Highprofile Classic stain shutters can span the largest single solid panel distances in the industry.

Talk to your sales representative about the various colours, stains, blade sizes and installation methods available.
