*“With my background in textile design,  
I saw an opportunity to work with the Bilum  
weaving communities to help bring their bags to  
a wider international audience.*

*My focus is to work with a few communities of  
incredible Bilum weavers to grow the industry  
so that it will become a much more stable and  
viable form of income for the women and their  
families, now and for future generations”.*
