

String

The String Table was inspired by one of Russel Koskela and Sasha Titchkosky's trips to Elcho Island, where they noticed that the women were adept at cat's cradle string games, and that this was one of their traditional games. The women can make a huge number of different shapes reflecting their incredible dexterity. Some of these shapes and the memory of playing cat's cradle games as a child were the inspiration behind the string tables unique bent steel base.

The top is available in 2 sizes and in solid engineered timber or timber veneer. The base is available in metallic finishes or Koskela powder coat colours.

MATERIALS

The base is made of tubular steel that can be powder coated or electroplated.

For the top, choose from the following:

- Veneer: American Oak, White Ash, Birch
- Solid engineered timber: American Oak, Spotted gum

Custom veneers and solid engineered timbers are available for an extra charge.

FINISHES

Base
