

DIY Shadow Puppet Theater

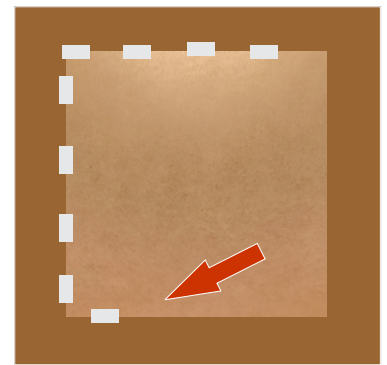

Supplies

- Cardboard box
- X-acto knife/box cutter ☀
- Tape
- Parchment paper, wax paper, or tissue paper

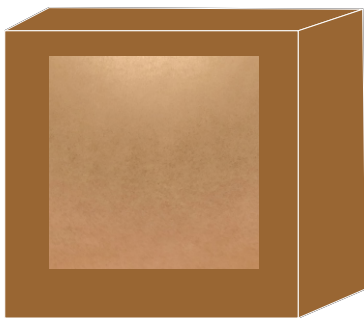

1.) Step one- Have an adult cut a square or rectangle hole in the front of the box.

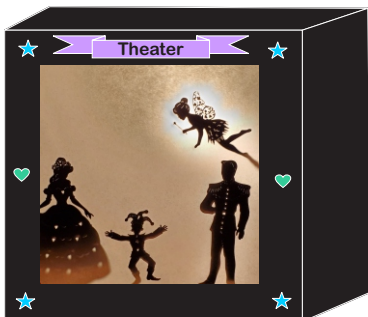

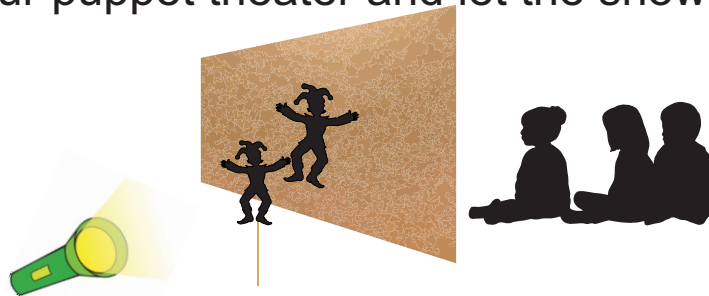

☀ Adult assistance is required when using sharp objects such as box cutters. ☀

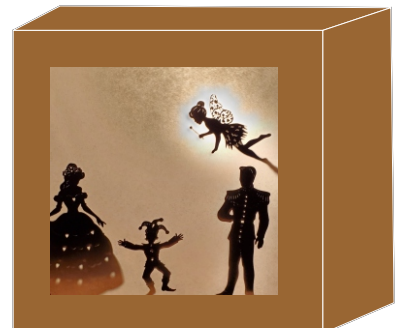

2.) Step two- On the inside of the box, fit a piece of parchment paper to the hole and tape the edges down.

3.) Step three- Place a flashlight, smartphone, or small reading light behind your puppet theater and let the show begin!

If you like, paint, color, or decorate the front of your theater.
