ATMOS TOUR SPEC

New for 2017, the ATMOS Tour Spec line is geared towards the performance golfer looking to keep the ball flighted down with low spin. Continuing with our iconic "Tour Spec white" paint, ATMOS is a true tour flighted line of shafts with a simple color coding – red as the higher launching, blue as mid launch, black as the lowest launch – similarities include keeping the handle flexes the same for feel, but adjusting mid and tip sections for launch and spin to achieve your desired ball flight.
