

PRO 2.0

NOW WITH MORE UP-AND-AT-EM

The newest version of Fujikura's most popular shaft, PRO 2.0 has been enhanced by proprietary enso® technology to drastically improve launch and reduce spin.

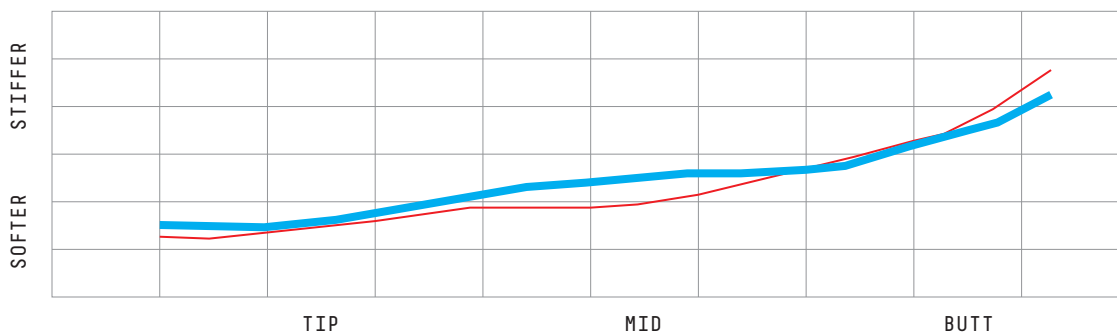

PRO 2.0

HIT + CAGE + MAXIMUM CARBON FIBER CONTENT + 40 TON CARBON FIBER + PHANTIUM® FINISH

The PRO Series, originally introduced three years ago, has quickly become Fujikura's most popular, playable and easy-to-fit line of performance shafts. New for 2018, using proprietary enso® technology, the PRO 2.0 features a lower loading section to increase launch, lower torque to reduce spin and a bold, modernized design to turn heads. It's ideal for a wide range of golfers, and available in Tour Spec for more aggressive swing tempos.
