NiteSafe™  
Duo

Instruction Manual  
Model: XL20733

Please read these instructions carefully before connecting  
or using the appliance. Keep for future reference.

## Important Information

When using electrical appliances, in order to reduce the risk of fire, electric shock, and/or injury to persons, basic safety precautions should always be followed.

## For your safety...

Read all instructions carefully, even if you are familiar with the appliance.

Do not use this appliance/charger if it appears to be damaged

Do not look directly into the light source or point it into the eyes of others. This can lead to retinal damage.

Charge the light only with the charger provided

Do not throw the charger into fire and do not expose it to extreme heat. The charger could explode or burst.

Do not attempt to alter or manipulate the charger in any way. Doing this increases the exposure to danger significantly.

This appliance is not watertight and is unsuitable for use in damp environments.

This is not a toy. Close attention is necessary when used near children.

Do not use with a damaged outlet.

Do not handle charger with wet hands.

Do not immerse the appliance or charger in water or any other liquid.

Do not attempt to use the charger with any other product.

Only plug the charger into a standard electrical outlet. Not to be used with extension cords.

Do not operate with a damaged charger or if the appliance has malfunctioned or been damaged in any manner.

Do not allow children to play with the packaging materials.

## Nightlight Mode:

Keep handheld light plugged into charging cradle, the 6-LED front faced nightlight will automatically turn on in a dark room once movement is detected.

While in Dusk to Dawn mode the 6-LED front facing nightlight will automatically turn on during the hours of darkness. Dusk to Dawn function is not as bright as Sensor nightlight function.

Sensor Delay Time: 30+/-5s  
Sensor Distance: 3 - 4 metres

## Power Failure Mode:

Super bright 4-LED light automatically turns on during power failure (except when the switch is in the middle position).

## Torch Mode:

When the Duo is taken out of the cradle place the switch in the top or bottom position to activate the torch.

## Induction charging methods Rechargeable Li-ion 280mAh battery
