

WASTE BUSTERS

Reference	Primary Social Studies, Grade 4 / Standard 3
Type of Resource	Worksheet / Assessment
Skill	Classifying/sorting rubbish into the correct bin
Prior Knowledge	How we can reduce, reuse and repair, and recycle our waste and what we must eventually throw away

Teaching tips

There are no 'correct' answers for this – ideally we would reuse or recycle everything, but children need to sort the items according to what they know in terms of recycling in their own country and community, and what you have told them is possible.

Children could do this worksheet in pairs and then once everyone has completed theirs, have a class discussion about what items should go where, and why.

NAME _____

DATE _____

WASTE BUSTERS

Put the things in the right bin by drawing a line from each item. Try not to throw away more than you have to. Be ready to defend your choice.
