

“The SD2 Wheelchair is an upgrade in both design and features and replaces the old Drive Super Deluxe Wheelchair.”

SD2 ALUMINIUM WHEELCHAIR

Product features

- Elegant metallic black aluminium frame
- Double cross brace provides added support to the wheelchair
- Attendant or user accessible parking brakes on rear wheels ensure safety along with attendant cable brakes on transit models
- Improved footrests swing in and out to enable transfers on and off chair, whilst flip-up and removable armrests facilitate side transfers
- Push button adjustment facilitates height and length adjustable arm pads
- Incorporated as standard are deluxe seat and back cushions and a padded tension adjustable backrest for added comfort
- Rear stepper tubes with integrated height adjustable anti-tip wheels facilitate safe curb-climbing for both attendant and independent user
- Half folding back mechanism allows easy storage and transportation
- Quick release rear wheels on Self Propel models
- Black pneumatic rear tyres and puncture proof front tyres are durable and low maintenance
- Chair is fitted with reflectors to improve outdoor visibility at dusk or when dark
- One touch lap belt for added safety
- Features handy rear pocket for storing items
- Comes with calf strap as standard for additional leg support

“Our new and improved XS2 Wheelchair uses a similar frame to the XS Wheelchair but adds many new features”

XS2 ALUMINIUM WHEELCHAIR

Product features

- Sturdy, silver aluminium frame is lightweight for transporting, durable and aesthetically pleasing
- Simple folding mechanism, half-folding backrest, removable arms as well as quick-release footrests and self-propelling rear wheels allow space-saving storage and easy transportation
- Padded desk-style armrests provide additional comfort and allow unhindered access to work surfaces
- Footrests swing in and out to enable transfers on and off chair, whilst flip-up armrests facilitate side transfers
- A one-touch lap belt is also supplied on both self-propel and transit models, providing additional stability for user
- Incorporated as standard are a seat cushion, tension adjustable backrest and push-button length adjustment on armrests, allowing chair to be easily adapted to suit comfort preferences
- Long-reach brakes on rear wheels give easy access to attendant and user for increased safety, with transit model also featuring 'immediate-access' cable brakes to reduce speed or safely park chair
- Rear stepper tubes with integrated anti-tip wheels facilitate safe curb-climbing for both attendant and independent user
- Chair is fitted with reflectors to improve outdoor visibility at dusk or when dark
- All-round solid Polyurethane (PU) tyres offer durability and minimum maintenance
- Available in three different seat widths to suit various user sizes
- This wheelchair has been crash tested providing added safety when being transported in a vehicle
