

# ONE·TOUCH™

## Revolutionary one touch technology makes easy work

One Touch has designed and developed a great range of next generation kitchen tools and accessories – adopting the basic principle that products should be “simple to use by everyone”. Their products are designed for families young and old.

In 2005, One Touch pioneered a unique, hands-free can opener aimed at transforming the lives of the growing number of elderly people with weak or arthritic hands. This patented, One Touch Can Opener has gone on to sell over 12 million units worldwide and won five major international awards for design and quality.

The OneTouch Can Opener has become a hit not only amongst the physically challenged and left-handed consumers, but also for the rest of us.

The One Touch range continues to grow with a range of innovative kitchen gadgets designed to make all that easier for everyone.

## Automatic Can Opener
