- 08 Blower housing made from impact resistant plastic material
- 09 Modern, low emission and service friendly SOLO 2-cycle engine with Nikasil® coated Mahle cylinder and robust BING® carburettor - made to last!

The SOLO PORT 423 is an internationally recognized classic model and worldwide the most sold portable power mister.

It might be in agriculture, in forestry, in market gardens, in public parks and recreation areas, in orchards, in vineyards or in coffee and cacao plantations in Africa or South America – the SOLO PORT 423 is indispensable.

With constant updates, the SOLO PORT 423 now represents, more than ever before, immense misting performance and low weight coupled with durability and reliability.

The most modern SOLO engine technology - Made in Germany – with high grade German quality components from MAHLE® and BING® provide outstanding robustness, low fuel consumption, reduced emissions and high continuous performance – also under extreme thermic conditions.

Apart from its important role in plant protection, the SOLO PORT 423 is also successfully deployed for pest control in agriculture and increasingly more for the treatment of specific areas for vector control.

Model	423 Port
Part no.	4000123011
Engine	SOLO 2-stroke
Capacity	72.3 cm³
Rating	3.0 kW / 4.1 HP
Tank capacity	12 l
Max. air delivery	1400 m³/h
Horizontal reach	12 m
Weight (dry)	11.0 kg
Standard delivery	SOLO special misting nozzle with 4 settings, long reach nozzle, wide angle grille, deflector nozzle and double sided screen
Sound pressure level	97 dB(A)
Sound power level L_{WAeq}	110 dB(A)
Vibration value	≤ 6.3 m/s²

You will find a comprehensive assortment of accessories in our main catalogue
