

solo®

THE BETTER CHOICE. SINCE 1948.
German quality sprayers and cut-off machines

Product Information CLASSIC Backpack sprayers 425 / 475 / 473 D

Operational benefits

- For standard duties and casual use for plant protection jobs over medium size areas, in greenhouses, in horticulture and landscaping.
- Suitable for use with all approved plant protection chemicals and for liquid fertilizers.
- In addition to the 425 CLASSIC equipped with piston pump for higher pressure, ideally suited for use with low viscosity liquids (free flowing liquids), the model 475 CLASSIC with diaphragm pump is preferred for use with higher viscosity and more abrasive (suspensions) liquids and at lower operating pressure.
- The choice of the two models with 15 litre tank is enhanced by the smaller model 473 CLASSIC with 12 litre nominal tank volume and with diaphragm pump.
- The tanks feature a stable base frame and integrated fill level markings. They are moulded with thick walls from UV-resistant polyethylene.
- A removable strainer is fitted in the tank filling aperture.
- A sturdy pump lever is bolted to the pump shaft and can be mounted to the right hand or left hand side.
- The transparent, fabric reinforced delivery hose is particularly strong and kink resistant. The length allows a large spray coverage area.
- A sturdy hand trigger valve with release lock permits fatigue-free operation and can be equipped with a pressure gauge.
- Included with the sprayer are a plastic flat spray nozzle and a two-part hollow cone nozzle.

Accessories

- The comprehensive Solo Accessory Range is available for the CLASSIC Backpack Sprayers. The supply of spare parts is guaranteed for many years to come.

Large filling aperture for easy filling, draining and cleaning. Strainer with large filtering surface.

Almost unbreakable 50cm long plastic spray wand.

The backpack sprayer models Solo 425 Classic, 475 Classic and 473 D Classic are robust backpack sprayers for the private user and for the occasional professional use. They are for price conscious owners and for price sensitive markets. Their basic product features make them part of the Solo Classic line.
