German quality sprayers and cut-off machines

Product Information

18V Battery-operated backpack sprayer

426Li

Brass adjustable nozzle

Strap / harness

Comfortable
carrying system

18V / 2.5A LI-ION Battery
(4a/h available separately)

Practical design

- UV-resistant tank for durability.
- Stable base provides secure footing on uneven surfaces.
- Wand clip for easy storage.
- Robust hand valve ensures comfortable, fatigue-free spraying, with a sturdy and kink-free delivery hose measuring 1.3m in length.
- The tank's design minimises liquid residue, and it is easy to drain.
- Padded harness and waistbelt for optimal comfort.

Operational advantages

- Robust and maintenance-friendly design
- Powerful, durable pump with volume control
- Compact, light weight lithium-ion battery
- Up to 3 hours continuous runtime

Model	426Li
Net weight	4.3kg
Battery, voltage / capacity	Lithium-Ion 18V / 2.5Ah
Nominal volume	16L
Nozzle	Brass adjustable nozzle
Output volume with standard nozzle	0.4 to 1.2 L / min
Output volume	up to 180L
Spray pressure	Variable up to 5 bar
Operation time max.	up to 3hrs
Standard delivery	Brass adjustable nozzle 50cm spray wand Battery and charger
Charging time	approx. 180 min
