# Comfort and work safety with your motorized high pressure pump SOLO 433

- Longer reach saves back without carrying weight while working
- Safer working with ladders in orchards – the sprayer can remain on the ground
- Ideal in tight operating conditions, such as narrow row crops
- Health risk is reduced in closed areas, such as green houses. The motorized pump can be kept outside
- No noticeable loss of operating pressure even over the full 10m distance. The „power reserves“ of the SOLO 433 are enormous with 30bar operating pressure
- Can be ideally and combined with a conventional hand truck or wheeled trolley for easy transport and long reach
- Compatible with the complete range of SOLO 433 accessories

Part no. 49 00 191
