

# solo®

THE BETTER CHOICE. SINCE 1948.  
German quality sprayers and cut-off machines

## Product Information Trolley-Sprayer 453

### ■ Pluspunkte bei der Anwendung

- Attractive, modern shape
- Surprisingly large spray tank with 11 litre nom. volume for extended operational periods, despite the narrow and compact silhouette
- Aluminium handle with pleasant, soft-grip cover
- No tools required to use the quick lock system and adjust the handle height to individual requirements
- Large wheels allow comfortable transport to the work site
- High value, large and strong pump handle. Can be operated comfortably with gloves
- Metal pump stem
- Few pump strokes are required for good pressurization (max. 2 bar pressure)
- Comfortable filling with large, funnel shaped filler inlet
- Pressure release valve
- Complete SOLO Pressure Sprayer Attachment Range can be utilized
- Low empty weight, only 3.7 kg
- Attractive, individual packaging with 4-colour print

### ■ Supplied with:

- 3.0 m long spiral hose
- 40cm long spray wand (can be attached to pump handle for transport and storage)
- Ergonomically shaped and large handle
- Adjustable universal nozzle

Plant maintenance made easy: The large wheels of the SOLO 453 trolley sprayer make it easy to pull along, facilitating work involving long distances, whether moving through a garden or transporting to site. Yet the use of aluminium for the height-adjustable handle keeps the weight right down. The dry weight is a mere 3.5 kg.

Just a few pump strokes are enough to build the necessary pressure inside the 11 l tank. The pump handle is large and robust enough to be securely gripped with gloves. The same applies to the tank handle with its soft grip sleeve. A spiral hose provides the necessary reach.

Model	453
Part no.	4000153200011
Nominal capacity litres	11
Max. spray pressure bar	2
Dry weight kg	3.5
Transport wheels	Yes
Handle height adjustment	Yes (locks without need for tools)
Hose length m	2.5 (spiral hose)
