

Petrol	Oil
	Solo 2T engine oil 2% (1:50)
1lt	20ml
5lt	100ml
10lt	200ml

IMPORTANT INFORMATION

SOLO HIGHLY RECOMMENDS THAT YOU USE THE APPROVED SOLO 2T

This is a fully synthetic oil that can handle the higher heat generation in the modern 2 stroke engines.

Running In only: Always use a fuel/oil ratio 25:1 (4%) for the first four or five tank fills.

AFTER RECOMMENDED RUNNING IN PERIOD:

Thereafter, we recommend a fuel/oil ratio of 50:1 (2%) with the use of Solo 2T

NB: FAILURE TO USE SOLO 2T WILL NEGATE YOUR WARRANTY

DO NOT STORE OIL/FUEL MIXTURE FOR LONGER THAN 1 MONTH as fuel goes stale (loses octane) and the two stroke oil can fall out of solution
