This collection presents effortless looks with sets from duty to off-duty, all decorated with the golden signature buttons contributing to an impression of femininity. Such as the multicolored set with details of the seasonal palette. Additionally, Busnel introduces new materials and styles such as a stone washed linen and espadrilles in canvas, suede and leather.

Renewed versions of earlier pea coats and jackets are presented this season. Now with a new boyfriend look with tonal buttons, produced in the highest quality of wool with handcrafted details.
