AN INDEPENDENT OPTICAL BOUTIQUE,
FULLY STOCKED WITH DESIGNER,
VINTAGE, CLASSIC FRAMES
& OTHER CURIOS.

4 | Johnston's Lane
WESTPORT - DUNDEE

We thought a guide to ordering online might be helpful while you can't visit us at the shop.

We want you to feel confident about shopping online with Spex Pistols. So, we're going to take you through the steps of the online ordering process and show how simple it is.

STEP 1 - Choose your spex
(We include dimensions and photos of the spex from all angles)

SPeX PISTOLS

Frame details

eye size: 46mm

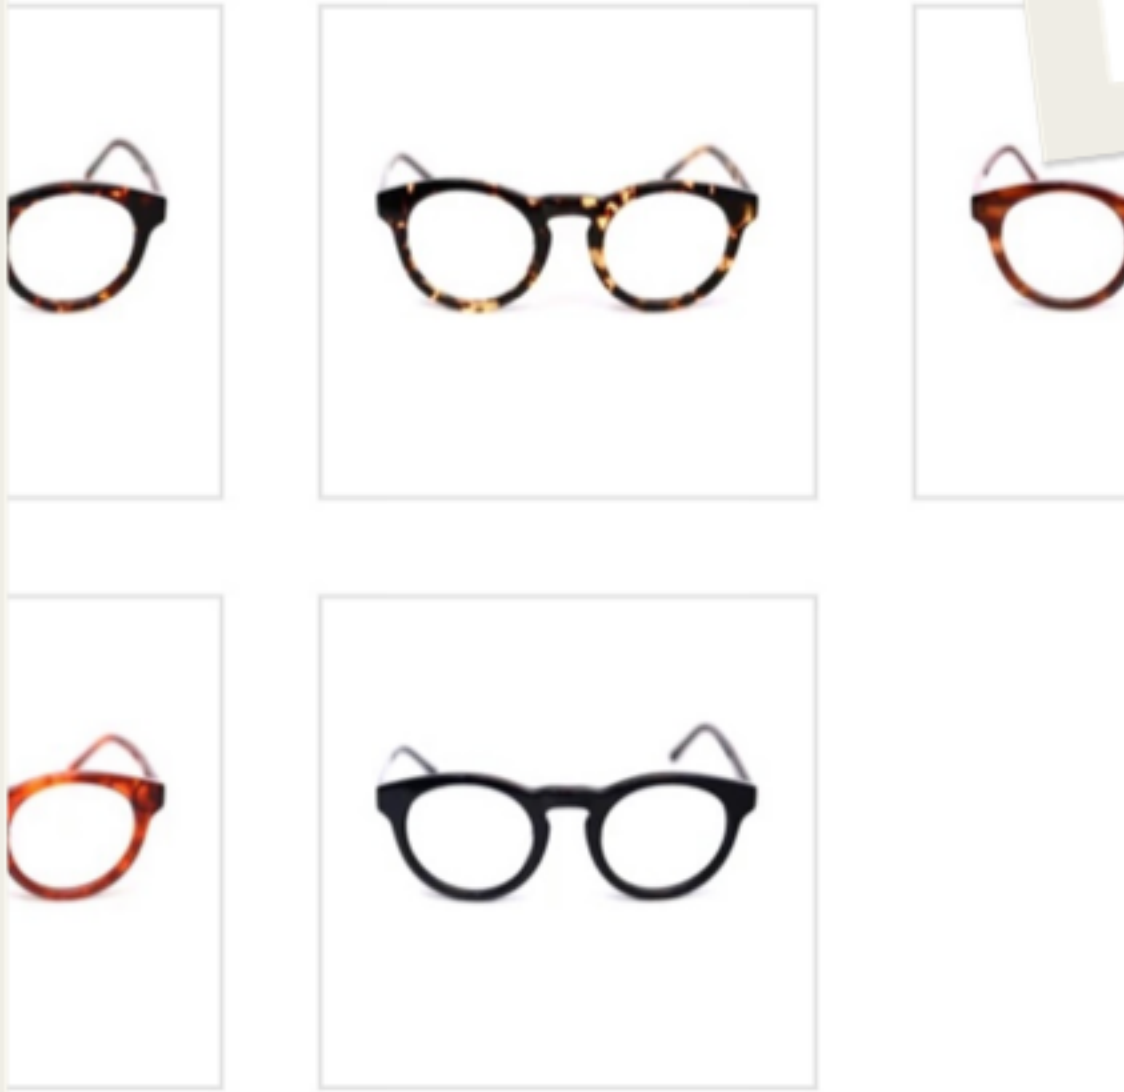

bridge size: 23mm

leg size: 145 mm

This chunky round acetate frame has a retro Cole Porter look. And with 9 colour options available, there's one to suit everyone.

- 🕒 All of our frame prices include lenses
- 🕒 FREE anti-glare coating as standard
- 💎 FREE anti-scratch coating as standard

Colours and Finishes

**na - Blue
tortoiseshell**

£69.00 ~~£129.00~~

STEP 2 - SELECT THE PRESCRIPTION TYPE FROM THE DROP DOWN MENU

Prescription distance

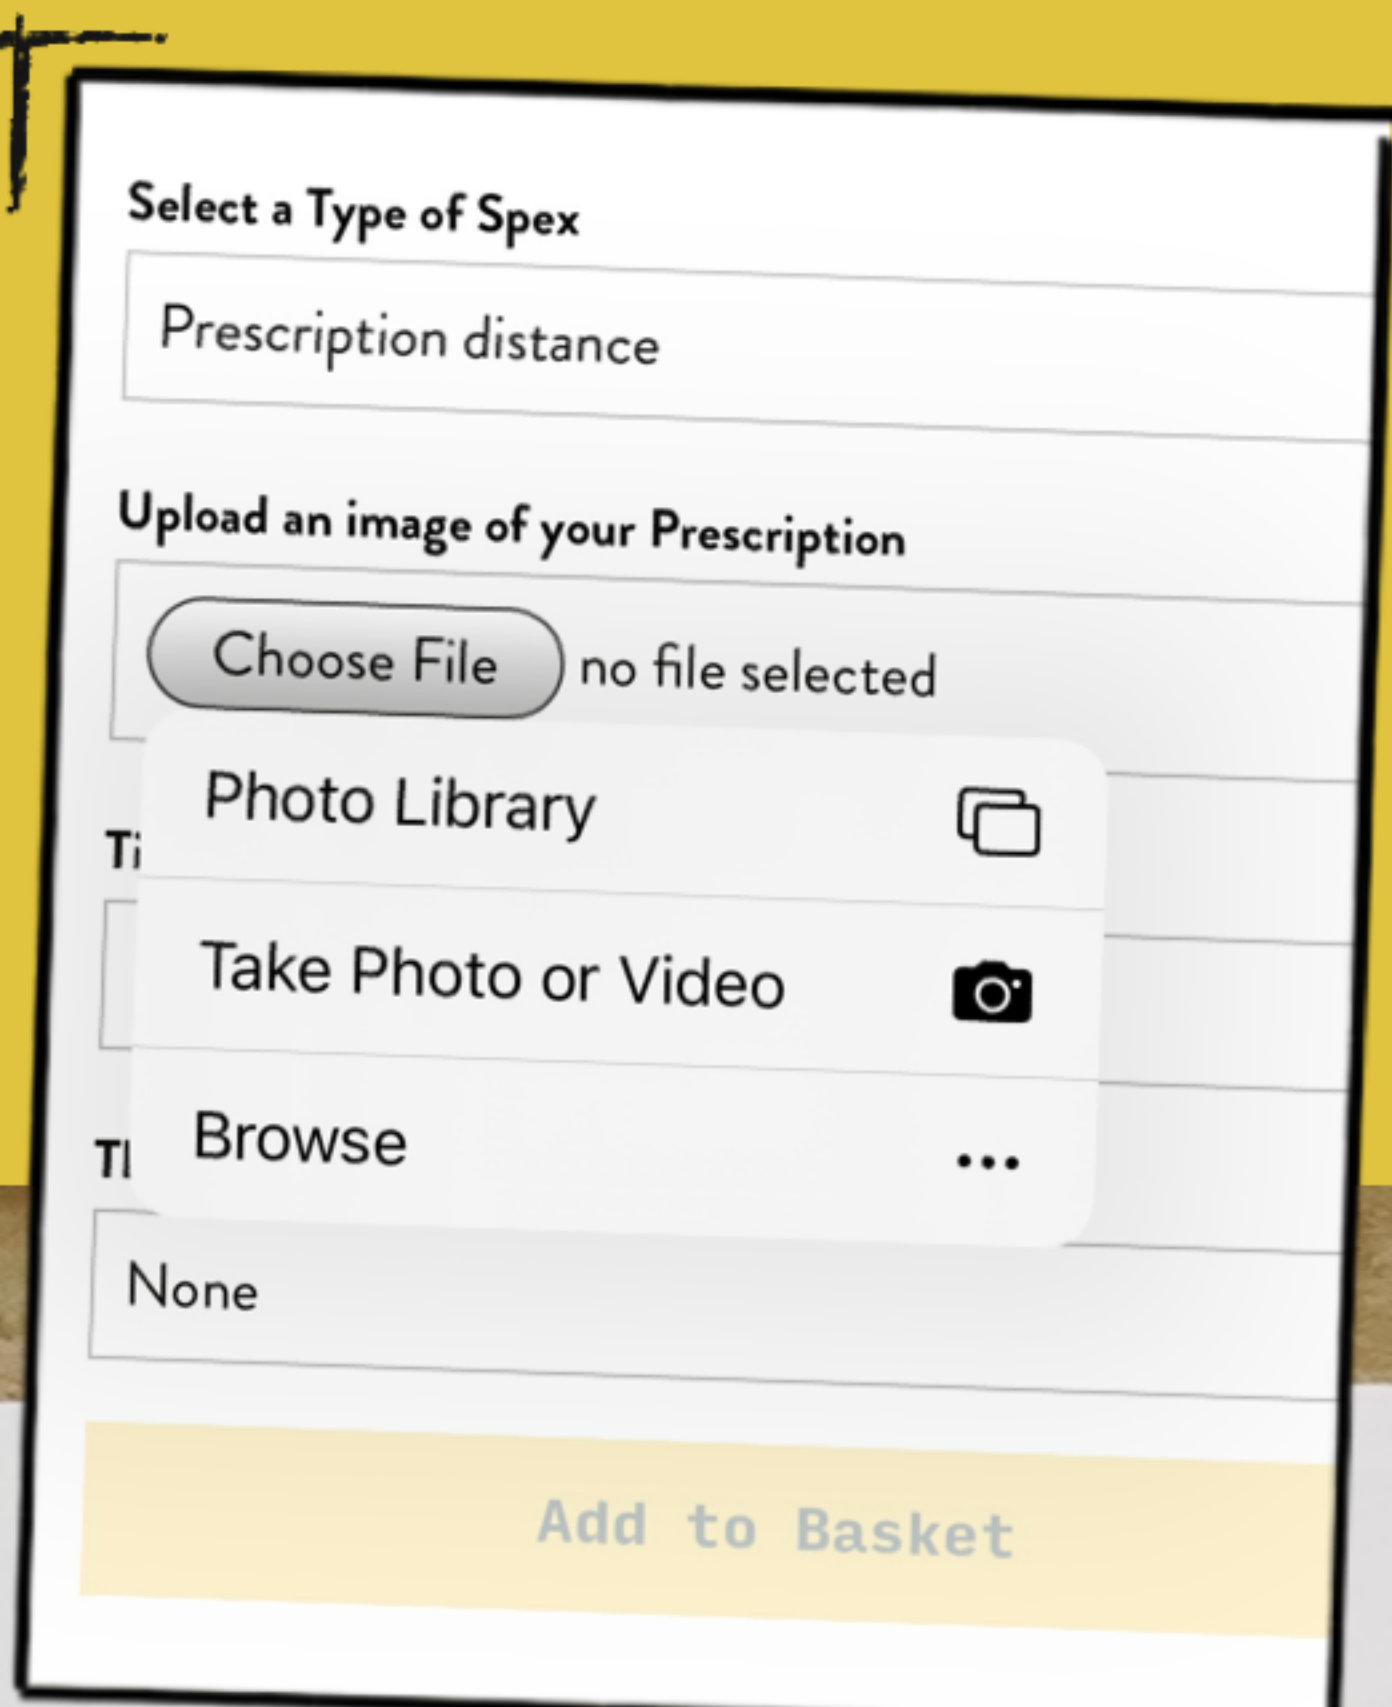

This is the prescription the majority of us will be using for our spex. It includes both + and - prescriptions.

Prescription reading

This is specific to those who have a distance prescription but also have an additional reading prescription. This will be marked on the prescription under the section 'ADD' or Reading Addition.

STEP 3 - UPLOAD YOUR PRESCRIPTION

To keep things as simple as possible - you can send us a photo of your prescription (like the one below). This ensures no details are missed.

STEP 4 - CHOOSE YOUR LENS TYPE

This might seem like the most complicated part. But, we promise that it's really quite easy. It's just a matter of deciding what you need from your spex.

Here are some of the criteria you should think about and a quick explanation of the lens types we offer to help you find the lenses that are right for you.

REMEMBER...

All of our lenses come with anti-glare and anti-scratch coatings as standard. Plus thinner 1.6 lenses (if you need them).

LENS EXTRAS

Would you prefer a lens that's resistant to smudging and smearing? Then our Easy Clean lens is the one for you,

Do you want your lenses to be lighter and thinner? You'll need to select from our thinner lens option. There are 3 available.

Do you want your spex to be sunglasses? Then you need to choose a tint or polarised lenses.

Do you need spex that will transition with the light? If you do, you can choose from 2 tint options.

SUPER LENS

This is probably our most popular lens choice. It offers it all. We'd say it's the best lens at the best price...with anti-glare and anti-scratch coatings, 1.67 lens, blue shield protection and easy clean. £49

ALL THAT'S LEFT
TO DO . . .

...is to select your
delivery preference.

But, if you have any
questions that haven't
been covered, just
message us.

We're always here to help.
