Right Foot

Print this scale in Original Size (please check your printer settings). Stand bare feet on the paper to measure size and width

- 1 Place the top of your toes on the upper top of the paper
- 2 Place the inner side of your foot left on the red line
- 3 Measure the scale where your heel finishes (line will indicate size)
- 4 On the widest part of the outer side of your foot draw a line with ruler and pencil. Take the reading of the width where the coloured area crosses your pencil line.
