Working Student or Internship – Data Science (f/m/x)

Who we are

LEASING FOR GOOD is a platform business that makes non-ownership in fashion and other lifestyle categories the new normal. For end consumers we offer a subscription service that makes sustainability the more convenient option. For our business partners we build software and data services enabling them to have a share of the leasing market.

Our team is dedicated to changing old industry logics one lease at a time. We want to grow our business quickly and in a healthy way. We are investor-backed.

LEASING FOR GOOD was founded by Linda Ahrens & Tina Spießmacher in 2019. We are based in Hamburg

Key facts about the job

- Part or full-time position
- Working remote is possible
- Competitive wage
- Location: Hamburg Bahrenfeld

Your activities

We are looking for support in analysing the footprint of our business model in comparison to existing ecommerce and retail models. The results feed directly into our consumer-facing impact tools and features.

Your core activities include:

- Research of emission factors leveraging latest academic research
- Analyse data and derive insights
- Integrate your results into our data warehouse
- Work with our UX/UI team to make the data easy to understand for our customers

Your profile

- You're studying statistics, data science, mathematics or a relevant related field
- You're familiar with setting up and working with databases
- You're a driven and proactive doer and you find solutions, not problems
- You're experienced in documenting your work
- You're fluent in English
- It's a plus if you've worked in the startup environment

What we offer

- A flexible and people-centric startup life
- Responsibility and creative freedom to shape a product in its early stage
- Fast decision-making processes and varied tasks
- Work with purpose-driven founders
- Flexible working hours

Interested? Awesome!**We are looking forward to hearing from you!**

Please send your application to jobs@unown-fashion.com and don't forget to include your portfolio / examples from your previous work, your CV and why you want to work with us.
