

MEASURING YOUR RING SIZE AT HOME

The best way to know your exact ring size is, of course, to get your finger measured by us or at your local jeweller.

We know it can be really challenging trying to select a ring size online, which is why we have this helpful sizing guide that can be printed out and used at home. This way - when ordering a ring from Raimondo - you can specify the exact size that you require to ensure the perfect fit.

HOW IT WORKS

We work with the British sizing system which uses alphabetical letters ranging from A - Z for measurements. When ordering, please select the 'I know my size' and when checking out, make a note of the size (alphabetical letter) in the "add additional info" section so we know the exact size of the ring you want made.

There are two ways to use this measuring guide. To start, print out the third page of this guide, once printed you can check that the print size is correct by measuring the page scale with your bank card or ruler. You can then measure your ring size by using either of the two options below:

1. Select a ring that properly fits the intended finger. Take that ring and place it over the circles until it fits perfectly over one of them. This will determine your ring size. If the ring falls between two sizes, order the larger size.
2. If you don't have a ring to measure with, cut out the ring sizer and follow these instructions:
 - Use your bank card or ruler to ensure the page has printed to the correct size.
 - Cut out the full arrow as well as through the slit labelled "cut here."
 - Insert the arrow head through the slit and begin to wrap around your finger as you tighten the ring sizer (the numbers should be facing out).
 - Tighten the ring sizer by pulling the arrow head further through the slit until it fits comfortably around your finger.
 - Read your ring size on the scale, but make sure it can also get over your knuckle. If you are unsure, opt for 1/2 a size bigger.

SIZING TIPS

- At the end of the day and when your fingers are warm (Fingers are smaller in the early morning and when cold). Measure finger size about 3 to 4 times to eliminate a wrong reading.
- When determining the perfect fit, it should not be skin tight, but should feel that it fits comfortably and secure around your finger.

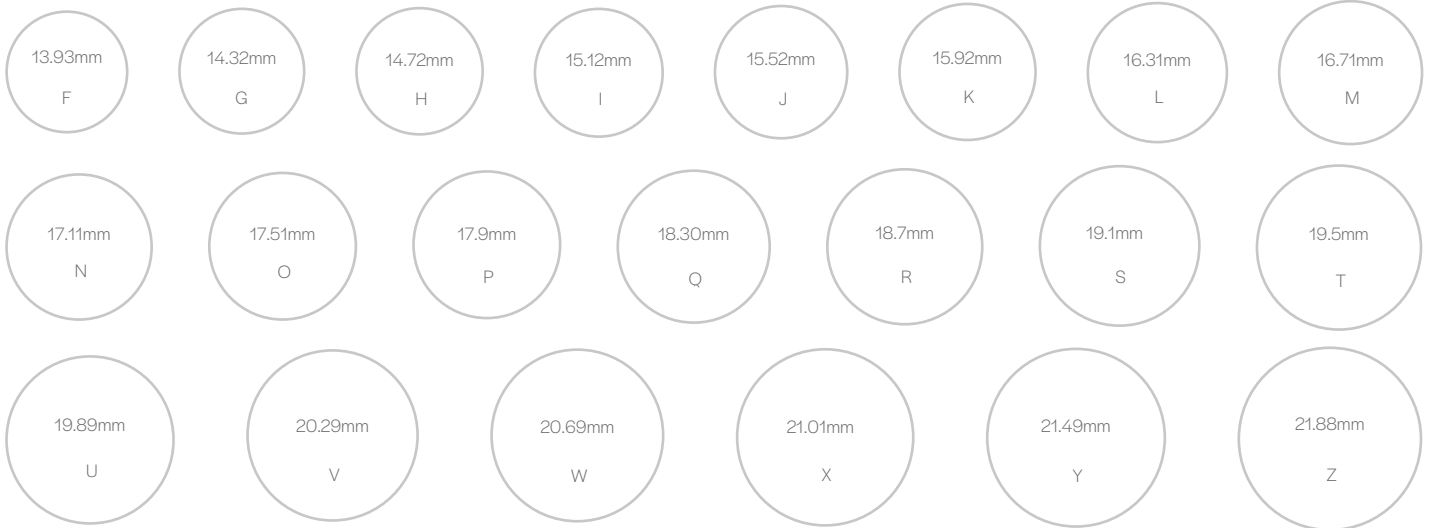

RAIMONDO

MODERN HEIRLOOMS

1. MATCH YOUR RING

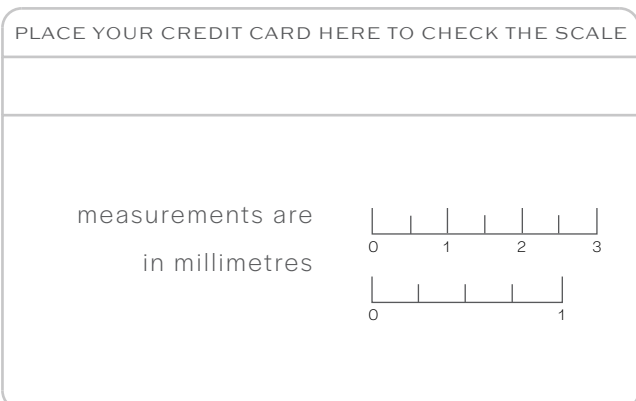

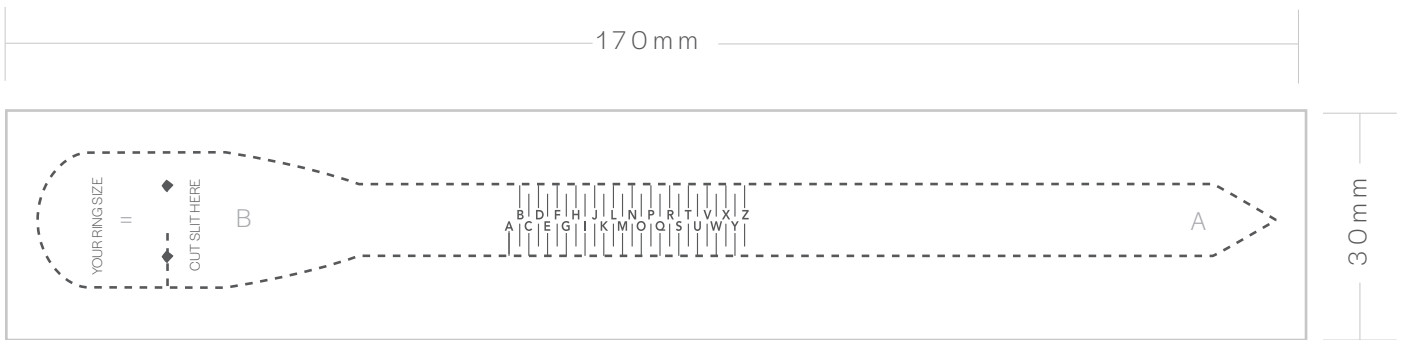

The inside diameter of the ring is indicated in millimetres below.

You can use these as a sizing method if you have a comfortably fitting ring at home.

2. RING SIZER

1. Cut out the ring sizer along the dotted lines, as well as the slit.
2. Wrap the cut out ring sizer around your finger with the printed side out.
3. Insert A through B and find the perfect fit.

To make sure you're using the correct scale, see that the box around the ring sizer has the correct measurements, or use your credit card to match this scale.
