Parts needed for assembly using method #506

Standard b-frame

Standard AG10 core

Disclaimer:
This step by step layout is one of the many ways someone can install their custom grille using method #506
Step 1:
Place the welded b-frame & AG10 core into a pre-routed opening for flush mounting.
Step 2: Welded b-frame & AG10 core placed into a pre-routed opening.

Installation complete.
