STEP 1:
Remove the 208 lattice perforated grille from loose frame by removing all the countersunk screws using the screwdriver.
(If installing multiple grilles be sure to keep grilles and frames together for easier installation).
STEP 2: Attach loose frame into the opening using typical drywall screws.
STEP 3: loose frame attached into the opening.
STEP 4: Reattach 208 Lattice Perforated Grille on the loose frame using countersunk screws and screwdriver.
STEP 5:
Installation complete.
