Parts needed for assembly using method #608

- 208 Lattice perforated grille
- Blocking (supplied by contractor)
- Countersunk screw (not provided)
- Angle

Disclaimer:
This step by step layout is one of the many ways someone can install their custom grille using method #608
STEP 1: Anchor the blockings into the opening using nails, screws or construction adhesive.
STEP 2:
Blockings placed inside the opening.
STEP 3: Place the welded 208 lattice perforated grille and angles on the blockings.
STEP 4:
Attach the welded 208 lattice perforated grille and angles to the blockings by using countersunk screws.
STEP 5:
Welded 208 lattice perforated grille and angles attached to blocking using countersunk screws.

Installation complete.
