

June 18, 2015

Hi Alberto,

Greg and I have seen the false allegations in the media regarding Galen. Needless to say this is a difficult time. Thankfully we have comfort in the truth.

As you know, we have always appreciated our relationship with you as Galen's coach. Your thoughtful and transparent approach is something that we have always valued.

We have raised our son in a very close knit family environment. Throughout Galen's childhood, including through his high school years, we were keenly aware & involved in his training regimen, including the use of supplements. We were diligent in understanding the exact content and purpose of any supplement Galen was taking. At no time was Galen taking testosterone and, as parents and licensed healthcare providers, these false accusations are appalling and outrageous.

Knowing the truth, we will continue to hold our heads high and place our trust in our faith that Galen's excellent character and reputation will be validated.

Best Regards –

A handwritten signature in black ink that reads "M. Jamie Kupp". The signature is written in a cursive, slightly slanted style.
