I agree!! We do know from published data that 8 squirts would throw one the 4/1 ratio

Hi Dr.Brown, I don't think it's worth it. The four squirts was an enormous amount that was easily noticed and had to be applied carefully to keep it from falling off. When I apply it to myself I put three squirts at a time otherwise it slops off. - Alberto

That's 5 Grams. Want to try 6 squirts?

Jeff

Hi Dr.Brown, Here's the first results back from our last test! It's very reassuring. This is for Tony, Report 1502811 is prior to exercise and without gel. Report 1502812 is one hour after gel was applied and the gel was applied after a strenuous full basketball game a very high level. I don't think we need to worry about anyone sabotaging us but I'll let you know when Alex's results come in. Thanks! - Alberto
