FIRE-RESISTANT DOCUMENT PROTECTION

NT Fire 017
60 Paper

UL 72
Class 350
1hr

KEY FEATURES

- Certified by both SP (NT Fire 017 – 60 Paper) and UL (UL Class 350 1hr) for 60 minutes fire resistance
- Overall body thickness of 50mm, comprising of an inner and outer steel body containing a specially formulated fire-resistant solid barrier material
- Overall door thickness of 66mm
- Models come with a choice of two lock options:
 - A cylinder lock utilising a secure flat profile key
 - A user-friendly programmable electronic lock
- An anchoring kit is supplied which allows the safe to be securely base-fixed, preventing unauthorised removal
- Comes with internal fittings as standard, meaning that the unit is ready for use as soon as it is received

Fire can strike anywhere including in the office or the home. Executive Cabinets provide the peace of mind that in the event of a fire breaking out, your paper work can be recovered in a usable condition.

This range of document protection cabinets is ideal for storing essential documents such as wills, property deeds, contracts and insurance policies.

LOCK OPTIONS

The Chubbsafes Executive models are available with either a key lock or a user friendly programmable electronic lock

TESTING

The Executive Cabinet range has been tested and certified by both SP (Swedish National Testing and Research Institute) to standard NT 017, being awarded resistance Class 60 for Paper, and by UL (Underwriters Laboratory of America), being awarded resistance Class 350 1 hour.

INTERNAL FITTINGS

All models are supplied with internal fittings as standard, please see the product specification table above for more details.
