

Citrusolve

Cleaner and Degreaser

CITRUSOLVE is a breakthrough in detergency technology. It is a unique environmentally safe product, which can perform cleaning, degreasing and deodorizing functions without using harsh solvents and caustic chemicals. Its amazing characteristics can dissolve, emulsify and suspend all types of soil conditions while leaving surfaces clean with a pleasant citrus residual fragrance.

Acceptable for use in Canadian food plants.

Recommendations

For use on vinyl, porcelain, tools, appliances, floors, stainless steel, soap scum, bathroom tile, rest rooms, oil and grease, walls, trucks, automotive/transportation, machinery, aircraft.

CITRUSOLVE must be diluted in no more than 30°C water.

Light Cleaning: Dilute 1 part *CITRUSOLVE* with 40 parts water. **Use Areas:** All porcelain fixtures, i.e. tub, tile, sinks, urinals, stalls, floors, walls and composition tile.

Medium Cleaning: Dilute 1 part *CITRUSOLVE* with 10-20 parts water. **Use Areas:** Appliances, stainless steel, steel, chrome, rubber, vinyl and all other types of hard surface fixtures.

Heavy Cleaning: Dilute 50/50 with water. (Rinse after cleaning area). **Use Areas:** Grease traps, food fryers, automotive transportation equipment, tankers, engines, white wall tires, carbon build up and vandalism marks.

PRODUCT CAUTION: Painted surfaces may be affected in concentrated form. Test product on an inconspicuous area. Areas subject to food contact must be rinsed thoroughly with potable water.
