

Mycron 200

Soft Scrub

This white lotion cream cleanser stops the growth of odour causing bacteria while quickly removing embedded rust, soap scum, stains, grease, oxidation, hard water mineral deposits. MYCRON 200 contains a mild abrasive much less harsh than scouring powder. Also, this pure white stable emulsion contains bleaching compounds, detergents and wetting agents with different disinfectants. A residual protective coating is left on the surface which provides a barrier against future odour and bacteria.

Recommendations

Cleans, polishes and deodorizes the following surfaces: porcelain, enamel, urinals, rubber, plastic, sinks, bathtubs, drinking fountains, tile, walls, floors, formica, toilets. Squeeze a small amount directly onto surface to be cleaned. Loosen soil or stains with rubbing action using a cloth, sponge or brush. Rinse with water. For metal surfaces, polish with a soft dry cloth to create a bright shine.
