

Wild San Juan

Hawks & Herons...Cats & Cars: Living with Wildlife in the San Juan Islands

Thursday, April 18 at The Whale Museum

4 p.m. Meet & Greet, 4:30 p.m. Talk, 5:15 p.m. Reception

Part of the beauty of living on the San Juans is the abundant wildlife, but this can also be part of the challenge. Heron flying over or otters diving in the bay are not just scenery. They are working hard to make a living and raise their kids. Their quest for food and shelter can bring them into conflict with the human inhabitants of our island home and our activities can have major impacts on their lives.

Join staff from Wolf Hollow Wildlife Rehabilitation Center and The Whale Museum to understand more about human/wildlife issues, to discuss wildlife problems you may have encountered and to consider ways we can reduce these issues, so we can live more harmoniously together. This lecture will be preceded by a Meet and Greet and followed by an informal reception with refreshments provided.

This lecture is free and open to the public. For more information, call (360) 378-4710 ext. 30 or email info@whalemuseum.org.

The Whale Museum is located in Friday Harbor at 62 First St. N.
