# Sb Skin & Beauty Training Centre

www.skinandbeautytrainingcentre.com.au

#### OUR STORY

The Skin and Beauty Training Centre was created because we believe in giving everyone the opportunity and accessibility to professional, advanced industry training that is affordable and effective.

We are industry accredited and recognised, we collaborate with a select group of Australian industry partners, we back ourselves and we are proud of it.

We train hundreds of students each year. From business owners, beauty therapists, nurses, mums with bubs, side hustlers, those looking to re-enter the industry or upskill, we really have trained them all.

Our students have gone on to perform professionally trained treatments on over 150,000 happy customers Australiawide.

We believe in helping you become the best version of you.

Francesca Webster.

#### TRAINING & EDUCATION OVERVIEW

Our training courses are available for all levels of experience; from aspiring home salon owners, to experienced beauty therapists looking to expand their knowledge and upskill in a new treatment. At SBTC we believe in:

- Developing and educating learners to provide the best possible treatment experience and results for customers
- Empowering learners to feel confident in themselves and the treatments they are performing
- Provide a clear focus on business growth and profitability to enable small businesses to thrive and grow

#### COURSES & KNOWLEDGE

Education is at the core of SBTC's principles. With this in mind, we have developed a number of beauty courses that are aimed at developing, nurturing and educating therapists to provide the best possible treatments for their perspective clients.

These courses are able to be taken by experienced or aspiring therapists that are new to the industry as well as those with experiences looking to expand their knowledge. Face to face or online options are available to suit each student's needs.

"We believe in giving everyone the opportunity and accessibility to professional, advanced industry training that is affordable and effective."
