Pillow Menu

Celeste

Ballfiber Pillow

This durable ball-fiber pillow is made to remain fluffy and retain its shape, while providing exceptional comfort and value for money.

Microfiber

Microfiber Pillow

Replicating the silky softness of duck-down feathers, the super soft microfiber in this pillow feels fluffy like down and cushions your head for an unmatched sleep.

Contour Pillow

Orthopedic Foam Pillow

This orthopedic pillow made of special corrugated foam helps alleviate neck pains by absorbing pressure and aligning to the natural contours of the head and neck for extra support and better posture.

Comfort Pillow

Standard Memory Foam Pillow

Made with state of the art memory foam technology, this pillow retains an impression of the user's body shape to ensure that each pillow is customized for added support and comfort.

Memory Classic

Microfiber and Memory Pillow

This pillow envelops the head in the downy softness of microfiber with maximum support from the memory foam core for a unique sleep experience.

Memory Ortho Pillow

Orthopedic Memory Foam Pillow

Providing firm support and pain relief to the head, spine, neck and shoulder muscles by absorbing pressure, this moulded memory foam pillow is ideal for people with frequent headaches, migraines, snoring problems and sleep apnea.

Pillow Menu

Memory Cool Gel Pillow

Cool Gel Memory Foam Pillow

This pillow made with a combination of memory foam technology and advanced gel engineering provides support to the head and neck muscles, with the cool gel layer cooling and cradling them for a permanent solution to tossing, turning and pillow-flipping.

Latex Pillow

Natural Latex Pillow

This pillow made from natural rubber latex retains its shape for life, while the natural properties of latex make it anti-microbial, non-allergenic, and resistant to mites, mold and bacteria.

Latex Neck Support

Natural latex neck pillow

This moulded pillow made from anti-microbial and non-allergenic natural rubber latex retains its shape for life, while special grooves eliminate neck strain and help channel air through the pillow to dissipate moisture for maximum comfort.

Accessories

Sleep & Comfort:

The Sleeplab by Celeste Home Fashion is the one-window solution for all your comfort needs, with products including comforters, mattress protector, travel pillows, foldabed and jainamaz.

Health Care:

For health related issues, the Sleeplab by Celeste Home Fashion provides specialized solutions with products like Coccyx cushion, Ring cushion, BackCare and Cervical collar.

Sleeplab Technology

Bonnel Coil

Classic and most widely used, knotted round-top hour glass shaped steel wire coils.

Latex

Created from a naturally acquired ingredient from the rubber tree, it conforms to the body contours to provide bounce and aid blood circulation.

Micro Pocketed

Miniature pressure absorbing pocket springs, for increased comfort and equal body-weight distribution.

Pocketed

Designed to provide optimum support with motion transfer suppression technology; ideal for bed sharers.

Cool Gel

Ventilating cool gel beads regulated body temperature by circulating body heat and keeps you cool and sweat free.

Memory Foam

Developed by 1966 by NASA, it's a low resilience foam that moulds itself to the natural contour of the body, providing luxurious support and comfort.

Ball Fiber

The polyester ball fiber is soft and fluffy and does not go out of shape easily. It provides support and comfort to alleviate pain from stress or fatigue.

Ortho

A hard cored foam that is specially formulated to provide firm support to people with chronic backaches and other related problems.

Pressure

Provides additional support to sore and aching muscles and massages the key pressure points to relieve pain and discomfort.

Flip Free

Used from one side only, this mattress requires no flipping or turning.

Dual Sided

A dual function mattress, to be flipped and used to avail either of the two features.

Soft Support

For those who like their mattresses soft and sinkable.

Firm Support

For those who like their mattresses hard and firm, providing additional support for backaches and other ailments.

Medium Support

For those who like their mattresses soft, but slightly supportive.

How to choose the right mattress?

Focus on finding a mattress that satisfies your comfort preference first, then your quality preference. To do so, always:

- Shop wearing comfortable shoes and article of clothing that can easily be removed for lying down.
- The Sleeplab provides you the privacy you need to take your time to find your comfort zone as you cannot judge support and comfort by sitting on the edge or lying down for just a few seconds.
- Lie on the mattress in the position you sleep in, and if you sleep with a partner try shopping with them so you can decide together on what mattress satisfies both your comfort needs.
- The ideal mattress offers correct support regardless of the comfort level or price.
- Shop at a store that you know and trust, and that offers service you desire.

Caring for your mattress

It is very important to care for your mattress, after all we spend 1/3 of our life sleeping. Regular maintenance and care of your mattress will remove dirt, bacteria, dead cells and dampness while ensuring better ventilation, freshness and health so that your sleep experience is the best you will ever have.

Keep your mattress clean. Do not allow your mattress to get wet and protect it from water or other liquids. We suggest using a mattress protector. Do not use dry cleaning fluid of any type on your mattress as these chemicals could damage the filling, foam and upholstery materials.

Regular turning will help the fillings settle and compact down more evenly, although there will still be some visible signs of the mattress settling to the contours of your body. A flip-free mattress should be rotated.

Vacuuming is the only recommended cleaning method. If you must clean a stain, use mild soap with cold water and apply lightly.

After sales service

Our products come with 12 to 15 year warranty and our customer care service is always available to attend to your queries.
