

# HOW TO MEASURE YOUR HAT SIZE

- 1 To measure your hat size, use a soft measuring tape around the circumference of your head, at about 1/8 an inch above your ear, and around your forehead.
- 2 The tape should be as tight as you would like the hat to fit. Please measure twice to ensure you have the correct measurement—Remember every fraction counts.
- 3 We recommend the smaller size if you fall between sizes because the hat stretches over time. Remember that your hairstyle/cut can make a difference when dealing with fractions.

## TIPS

- **Need more room?** You can have your hat stretched by using a hat stretcher. Call or email us. We'll be happy to help.
- **Does it feel a little too big?** You can add an adhesive foam liner to the sides of your hat band to make the fit just right.

STANDARD HAT SIZE	STARTING CIRCUMFERENCE	ENDING CIRCUMFERENCE
7	24 7/8	22 1/8
7 1/8	22 1/4	22 1/2
7 1/4	22 5/8	22 7/8
7 3/8	23	23 1/4
7 1/2	23 3/8	23 5/8

SPECIALTY HAT SIZE	STARTING CIRCUMFERENCE	ENDING CIRCUMFERENCE
6 1/2	20 3/8	20 5/8
6 5/8	20 3/4	21
6 3/4	21 1/8	21 3/8
6 7/8	21 1/2	21 3/4
7 5/8	23 3/4	24
7 3/4	24 1/8	24 3/8
7 7/8	24 1/2	24 3/4
8	24 7/8	25 1/8
