

# NOOR ORIGINS BLACK SOAP

## How To Use

### **Step 1 | Prepare Your Skin**

Prepare your skin by taking a hot shower/bat as you feel comfortable. Make sure the skin is warm and hydrated before applying the soap.

### **Step 2 | Application**

Apply a small pinch of soap directly on to a warm and wet body from neck to toe using your hands, loofah or washcloth and leave it for 5-10 minutes, this will prepare your skin for your exfoliation.

### **Step 3 | Deep Clean/Scrub**

Wash away the black soap, then scrub your whole body head to toe with kessa glove. Do not worry if you see dark particles appear; it's simply dry dead skin coming off your body. Once finished, wash your body from all dead skin and impurities.

### **Step 4 | Shave (optional)**

Lather and shave. Super moisturizing properties of Moroccan Black Soap helps give even closer, smoother, and more comfortable hair removal than gels and creams. Great for her and him.

## **Suggested Usage:**

Daily

## **Benefits**

Relieves acne, clears blemishes and normalizes oily skin
