# GOLIATH™

## GROUND LEVEL HEAVY LOAD LIFTER

### 12,000 lbs capacity

Introducing the **Superlift Ground Level 12,000 lbs Load Lifter** - the ultimate solution for heavy lifting tasks! With its powerful lifting capacity and sturdy design, this lifter is perfect for a variety of applications, including warehouses, construction sites, and industrial settings.

**The Superlift Ground Level 12,000 lbs Load Lifter** is built to handle even the heaviest loads with ease. Its powerful dual mast hydraulic system provides smooth and controlled lifting, while its durable steel construction ensures maximum strength and stability.

With a maximum lifting height of 120", this lifter can handle a wide range of lifting tasks. Thanks to its compact design and ground-level loading capabilities, it can easily maneuver in tight spaces and lift loads directly from the ground, saving you time and effort.

But that's not all - the **Superlift Ground Level 12,000 lbs Load Lifter** load lifter also features a range of safety features to ensure safe and reliable operation. These include an overload valve to prevent overloading, Upper and lower control panels for easy access and machine control and Dual mast lifting providing superior safety factors.

So whether you need to lift heavy machinery, pallets or other heavy loads, the **Superlift Ground Level 12,000 lbs Load Lifter** is the perfect solution. Invest in the best and get the job done quickly and efficiently.
