

# Inter-locking Portable Fencing

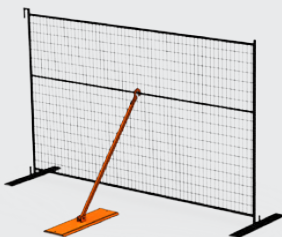

## 6' x 10'

### Features

- Quality fencing designed for workers by workers to keep a safe and healthy environment both in and around the workplace, social event, sporting event, or in any situation where extra security is required.
- Panels stand just over 6' high with a rugged construction of steel wire mesh and steel tubing for a frame. For a finishing touch and extra safety measures the fencing is powdercoated a durable safety orange that will withstand all types of weather conditions.
- Panels are placed on and held together by a very stable base and top connector with a hinge design. They can be either anchored or free-standing on most types of surfaces including, but not limited to, concrete, wood, grass, gravel, soil, etc.
