A PRODUCT FROM:

## BinoBro Standard & Pro-Hunter

The **BinoBro Standard** is a no-bounce binocular control system featuring our proprietary OPW Burr™ fabric with rip-stop, waterproof, and burr-proof qualities. The BinoBro incorporates a low profile ergonomic harness that is comfortably worn under backpacks, and has just one-inch of elastic for slight stretch for unrestricted breathing. All BinoBro's require no additional hardware to attach to your binoculars to use, and your binoculars are secured in the pouch by utilizing the bungee cord that wraps the binocular eye pieces, preventing dust, snow, rain, and sweat from fouling your expensive optics. The **ProHunter model** has a zippered pocket below the binocular pouch that can hold either an I-Phone 5S, Tags/License, Reading glasses, Small knife or other items. It has a windicator/puffer-bottle holder on the right side, and a small vertical call-pocket on the opposite side. Contact us for special order pricing.

## Range Finder Bro

The Range Finder is a BinoBro without a harness. Has two sets of belt loops to fit onto the BinoBro harness, backpack straps, or a 2" waist belt. Utilize the retention strap included on your range finder so you can tether to your person somewhere. This allows one to drop the rangefinder if needed and not lose it.

## Spotting Scope Bro

The Spotting Scope Bro is a protective scope pouch to carry your expensive optics.

It is a copy of our Overflow bag, but has a circumferential top-zipper in place of the two way full-length zipper. The Spotting Scope Bro can be attached to an ATV, horse, raft frame, to any pack, and of course is Greengate® System compatible to work in place of an Overflow pocket or be added to any OPW pack, anywhere you choose.

Sold singly or in pairs, we offer padded or unpadded.

#### Specifications:

Dimensions: 6" width (diameter) x 17" length
