

42MM FILTER CAP

VERSATILE FILTRATION

SPECIFICATIONS

TECHNOLOGY - Hollow fiber filter;
0.2 micron (0.0002 mm)

EFFECT - Removes bacteria, cysts
and sediment

FILTER CAPACITY - Up to 1,500 liters

FILTER OUTPUT - Rate >1 liter per minute

WEIGHT - 5.7 g / 2.0 oz

DIAMETER - 42 mm / 1.65 in

MATERIALS - PP/POM, EPDM, Silicone
Hollow Fiber, PVC & BPA free

PRODUCT PROFILE

- Ultra-versatile, compatible with all 42mm opening HydraPak products including, Seekers, Flux Bottles and UltraFlasks.
- 42mm Filter Cap is easily cleaned by shaking or swishing in water.
- Filter effectively removes common waterborne bacteria, such as E. coli (99.9999%), and parasitic cysts (99.9999%) per EPA Guide Standards and NSF P231 & microplastics (99.999%) per NSF 42 greater than or equal to 3.0 microns in size.

FEATURES

- 1 LIGHT & COMPACT** - Small size takes up no extra space when stored or threaded directly onto a container, bottle or flask.
- 2 FAST & SAFE FILTRATION** - Filters approximately 1,500L of fresh water at a rate of >1L per minute.
- 3 42MM THREAD COMPATIBLE** - Easily screw onto water storage bags and flexible bottles or flasks. Including HydraPak Seekers, Flux Bottles and UltraFlasks.
- 4 HIGH-FLOW NOZZLE** - Twist to drink nozzle. Simply drink or squeeze for a steady, high flow.
- 5 DUST COVER** - Keeps dust off the drink nozzle. Quickly opens & closes the nozzle with one hand.
