NETFLIX

Now with Netflix

That means your staff and guests can rest assured with an optimized experience that delivers seamless usability, the latest updates and superior reliability.

User-friendly design

Bring their home experience to your hotel. With Philips MediaSuite, guests can continue watching their shows and movies in the comfort of your rooms by simply signing-in to their own Netflix account. Account information is automatically erased at check-out for effortless management and GDPR compliance, with an easy option for guests to manually sign-out as well.

Connected for **entertainment**

Treat your guests to a 'like home' TV experience to make their stay even more pleasant. With Philips MediaSuite, guests can enjoy their favorite streaming services and saved content by casting from their laptops, tablets or phones to the big screen effortlessly.

A little help on **the big screen**

Press the Google Assistant button on your remote to do more on your TV with your voice. Ask Google to search for the latest blockbuster, stream shows, or open multiplayer games. Manage tasks and see your calendar. Or ask it questions and see the answers on your TV.

Intuitive **control**

Simplify your guest experience with the 22AV2025B/00 Remote Control. This optional accessory has buttons to access Netflix, YouTube, Google Assistant, and Chromecast built-in for faster access to popular entertainment.

He just realized he can **cast the game from his phone to your TV.**

Philips MediaSuite features Android TV and Chromecast built-in, making it easy for guests to cast their favorite shows, movies, music, sports, games, and more from their mobile devices.

What it is

Chromecast built-in enables the wireless casting of movies, presentations, and more from smart devices (mobiles, laptops, tablets) to your Philips Android TV. Users simply tap the Chromecast icon on their smart device to start streaming content from thousands of cast-enabled apps – put your small screen on your big screen.

Why you'll love it

Chromecast built-in is cost-effective, requires no extra hardware, secure for professional use, and exerts no extra load on your WiFi network when casting over a LAN connection.

What it is

Google Play Store is Google's official online platform featuring Android apps for Android devices. One-touch access to the Google Play Store means it's easy to add apps, games, music, movies, and more to your Philips Professional TV.

Why you'll love it

The safety and selection offered mean your Philips TVs provide secure content and more apps. Whether blockbusters, music, or games.

Extended lifetime

What it is

A future-proof TV system that can be upgraded instead of outdated! Our Philips upgradable TV is powerful enough to support the next Android, Google and Philips platforms, features, services, and functionalities.

Why you'll love it

The TV remains up to date for many years.

Analytics on-board

What it is

A Philips-provided service for gaining insight into TV and content usage. Whether in guest rooms or elsewhere in your establishment.

From hotel chains to sports bars, monitor how your Android-powered Philips Professional TVs are used.

- Find out how often specific channels are watched.
- Test the effectiveness of your advertising.
- Get the information you need to manage costs effectively, with easy to access screen-time data.

Why you'll love it

Your Philips TVs will continuously send usage data to Philips cloud servers. These will consolidate and regularly send data regarding the channels / apps / inputs watched—and for how long—to premises managers, who can save costs by removing any unviewed channels.

He just **updated the system** while having a cup of coffee.

Philips MediaSuite allows installation of a new Android versions on your existing TV, making it future proof as well as easy for employees to extend the lifetime of your systems.

They just left a **5-star review** without even leaving the room.

Ensure that your guests remember to rate their experience. Use the instant customer satisfaction survey option to collect valuable feedback before they even check out.

Guests **surveys**

What it is

Guest ratings on review sites such as TripAdvisor™, Booking.com™, among others, are driving hotel bookings. Yet, these reviews are only awarded after guest departure.

Our on-screen interactive service provides instant guest-satisfaction feedback via the Philips TV in each room. This allows for hotel management to understand, and ensure, guest satisfaction in real time. Hotel management can centrally determine

Why you'll love it

Asking guests about their stay and experience while they are still in the hotel, gives you the opportunity to influence the quality of their stay, leading to an increased rating on review sites.

UI **customization**

What it is

Your Philips Professional TV offers a clear, easy-to-navigate user interface (UI), which you can customize with your own branding. Easily add your logo and colors to the search bar to increase the visibility of your brand.

Why you'll love it

Easy to use, localize, and customize; making it easier for you to be seen and remembered.

Additional features

Android TV

makes it easier to get more from your TV. Choose from 400,000+ movies and shows from across streaming services. Ask Google to control your TV, get recommendations of what to watch, and more with your voice. Cast photos, videos, and music from smart devices to your TV with Chromecast built-in.

AppControl

Take full, centralized control of the apps installed on your Philips Professional TVs. AppControl lets you manage apps on selected TVs or your entire network. Giving you the ability to offer personalized experiences to your guests and customers – no matter how many TVs you are managing.

CMND & Control

Run your display network over a local (LAN or RF) connection. CMND & Control allows you to perform vital functions such as controlling inputs, updating software, and monitoring display status. Whether you're in charge of one TV or more.

CMND & Check-in

Make visitors feel welcome. CMND & Check-in lets you use individual information – such as name and language spoken – to create a personalized experience. Whether you're adding special touches for hotel guests, streamlining the billing process, or offering multiple channel packages.

4K brings content to life

Especially when customers are streaming their own videos, playing a fully animated game or viewing their vacation photos. 4K makes the difference in color gamut, backlight dimming, and peak brightness!

Channel surfing reinvented

Our MediaSuite remote relegates switching channels to the past: a dashboard replaces traditional channel buttons with a browser function that can search various content sources. Whether broadcast television, personal YouTube and Google accounts, or other preferred platforms.
