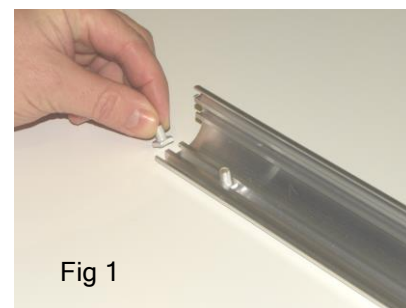

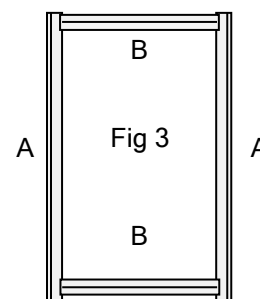

Fig 1

1. Take two corner uprights and slide four bolts into one of the inner channels, two at the top and two at the bottom. (fig 1)
2. Attach a side "T" at the top and bottom of each upright (fig 2) finger tight only.

Fig 2

3. Fasten the second upright to the side "T" to give you a side section (fig 3)
4. Repeat to give you a second side section.

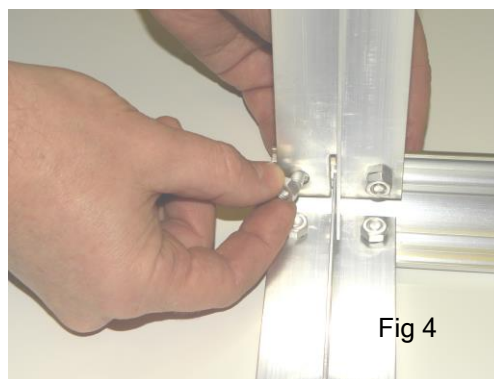

Fig 4

5. Lay one side section on the floor and slide four bolts down the upper channel of each upright - two at each end. Attach four of the front and back "T" (fig 4)
6. Attach the second side section to give you your basic frame (fig 5). Square up the structure and tighten all the nuts.
